

TABLE DES MATIÈRES

D. SERRE & A. F. VASSEUR. — L^2 -type contraction for systems of conservation laws	1-28
L. BERGER. — Lifting the field of norms	29-38
G. MÉTIVIER. — L^2 well-posed Cauchy problems and symmetrizability of first order systems	39-70
G. BUTTAZZO, A. GEROLIN, B. RUFFINI & B. VELICHKOV. — Optimal potentials for Schrödinger operators	71-100
A. BEAUVILLE. — Some surfaces with maximal Picard number	101-116
S. MOZGOVOY & M. REINEKE. — Moduli spaces of stable pairs and non-abelian zeta functions of curves via wall-crossing	117-146
F. LE ROUX. — On closed subgroups of the group of homeomorphisms of a manifold	147-159
C. BISI, J.-P. FURTER & S. LAMY. — The tame automorphism group of an affine quadric threefold acting on a square complex	161-223
M. FALK, V. SCHECHTMAN & A. VARCHENKO. — BGG resolutions via configuration spaces	225-245
A. DIMCA & E. SERNESI. — Syzygies and logarithmic vector fields along plane curves	247-267
V. KOLTCHINSKII & S. MINSKER. — L_1 -penalization in functional linear regression with subgaussian design	269-330
F. CAMPANA, B. CLAUDON & PH. EYSSIDIEUX. — Représentations linéaires des groupes kählériens et de leurs analogues projectifs	331-342
D. GÉRARD-VARET, D. HAN-KWAN & F. ROUSSET. — Quasineutral limit of the Euler-Poisson system for ions in a domain with boundaries II	343-386
Y. COUDÈNE & B. SCHAPIRA. — Generic measures for geodesic flows on nonpositively curved manifolds	387-408
